Distinctive Furniture Designs... Easy on the Environment

Modern, comfortable designs for today's casual lifestyle... Created from the past through the texture and warmth of 100% recycled teakwood.

You can rest easy knowing d-Bodhi teak is FSC certified. At the same time, d-Bodhi stimulates your imagination with a story behind each and every piece of furniture.

What looks like useless scrap wood taken from old houses, bridges in disrepair and old railroad sleepers is transformed into beautiful furnishings to enhance your home. Touch the small nail holes, cracks or old joints and you'll find yourself daydreaming about your furniture's exotic, tropical past.

All our furniture is manufactured by hand, using age-old traditional methods. No large machines are used so each piece becomes a handmade treasure. Our workshops also support the work of many local craftsmen and their families.

These are just a few reasons why you must have a d-Bodhi. Look through our catalogue and you'll find many more.

WOOD STORY

Weathered old buildings and houses, bridges in disrepair, and unused railway sleepers are dismantled piece by piece.

Skilled craftsmen carefully remove nails and hinges, seeing beyond the worn-out surface to a richer heart within. Under their masterful hands, the living, brathing wood comes alive again ready to grace your home for years to come.

FISSURE

The modern Fissure Collection combines smooth with rough-textured wood surfaces. Each item is characterized by a fissure - a split or gap - between two parts of the design, adding an element of surprise and intrigue.

DINING TABLE

Fissure's modern straight lines and textured surface harmonize beautifully with any décor. Add your personal touch from curvy baroque to sleek contemporary chairs. Open up the possibilities. Create the home of your dreams.
